Jean-Noël Barrot, Minister for Europe and Foreign Affairs, visits GTT Group headquarters in Saint-Rémy-lès-Chevreuse

Paris, 1 September 2026 – GTT was honoured to welcome today, at the Group's headquarters in Saint-Rémy-lès-Chevreuse, Mr. Jean-Noël Barrot, Minister for Europe and Foreign Affairs.

Welcomed by Mr. Philippe Berterottière, Chairman of GTT's Board of Directors, together with Mr. Thierry Valot, Group Innovation Director, and Mr. Karim Chapot, Technical Director, the Minister toured several research and development laboratories and facilities. The visit provided an opportunity to highlight GTT's innovation capabilities, the expertise of its teams, and its contribution to promoting French technological and industrial excellence internationally.

For more than sixty years, GTT has relied on innovation to develop membrane containment systems for the transport and storage of liquefied gases. With an average of nearly 10% of its revenue invested in R&D and more than 3,600 active patents and patent applications worldwide, the Group has ranked among the top three French mid-sized companies (ETIs¹) for patent filings with the French National Institute of Industrial Property (INPI²) since 2019.

The visit also provided an opportunity to present the Group's main areas of technological development, as well as the work carried out every day by its teams to design solutions deployed in industrial projects around the world.

François Michel, Chief Executive Officer of GTT, said: *"We would like to thank Minister Jean-Noël Barrot and the teams at the Ministry for Europe and Foreign Affairs for their unwavering and determined support. The maritime transport of liquefied natural gas plays a key role in the global energy balance, and French technology holds a leading position in this*

field. This visit provided an opportunity to reaffirm that our technologies constitute a strategic asset for our country. GTT intends to remain at the forefront, supporting its customers over the long term and preparing today the solutions for the next decade.”

Philippe Berterottière, Chairman of GTT’s Board of Directors said: *“We are particularly honoured to welcome the Minister for Europe and Foreign Affairs. This visit is a recognition of the work accomplished by our teams and of GTT’s position today among France’s most innovative technology companies, at the heart of global energy challenges. It also reflects the attention given to companies that contribute to France’s industrial, technological and economic influence internationally. Innovation has been at the heart of GTT’s identity since its creation and remains the driving force behind our development and competitiveness.”*

About GTT

GTT is a technology and engineering group with expertise in the design and development of cryogenic membrane containment systems for use in the transport and storage of liquefied gases. Over the past 60 years, the GTT Group has designed and developed, to the highest standards of excellence, some of the most innovative technologies used in LNG carriers, floating terminals, onshore storage tanks and multi-gas carriers. As part of its commitment to building a sustainable world, GTT develops new solutions designed to support ship-owners and energy providers in their journey towards a decarbonised future. As such, the Group offers systems designed to enable commercial vessels to use LNG as fuel, develops cutting-edge digital solutions to enhance vessels’ economic and environmental performance, and actively pursues innovation in the field of low-carbon solutions.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in the CAC Next 20, SBF 120, Stoxx Europe 600 and MSCI Small Cap indices.
